

Please don't change Indiana Telephone Privacy Laws. I have sighed up for a good reason to not receive annoying calls. When I sighed with my bank, I also told them they can't sell my infomation. I will never buy anything from an unsolited phone call and will not do my banking with any bank that will invade my privacy when I asked for them not to be able to call me. I have enjoyed the last couple of years without the non-stop phone calls. Please keep Indiana law as it is.
